

Investment Strategy

Investors in PvB (CH) Andante Fund - Global Segregated Portfolio participate in a diversified and actively managed portfolio of equity long/short funds. These alternative strategies allocate their assets primarily in long and short positions in the global equity markets. The objective of PvB (CH) Andante Fund - Global Segregated Portfolio is to achieve a sustainable performance with significantly lower volatility compared to a direct investment in the global equity markets.

For marketing and information purposes by PvB Pernet von Ballmoos Ltd (PvB). The PvB (CH) Andante Fund, an investment fund under Swiss law in the category "Other funds for alternative investments involving special risks", is an umbrella fund. The investment fund invests as a fund of funds in various investment funds or fund-type investment instruments such as trusts, investment companies and limited partnerships („target funds“) which pursue both traditional as well as alternative investment strategies and may use alternative investment techniques (commonly known as hedge funds), the risks of which are not comparable to those of conventional securities funds. PvB (CH) Andante Fund therefore belongs to the category „Other funds for alternative investments involving special risks“ pursuant to the Swiss Federal Act on Collective Investment Schemes of 23 June 2006 („CISA“). Some of the target funds are also subject to the laws of countries that do not have the same legal framework or standards of supervision as Switzerland. Investors must therefore be willing and able to accept substantial capital losses on the amounts they have invested and must accept the risks set out in the prospectus to which they have been explicitly alerted (see point 2.2.1). The fund management company, in cooperation with the investment manager, will, however, seek to reduce such risks as far as possible by means of diversification, as well as by careful selection of the target funds and by ensuring such target funds are subject to strict supervision. Even so, the possibility that in extraordinary circumstances individual underlying target funds might sustain a total loss cannot be excluded.
