

Luxembourg Selection Fund – Nerrick US Equities

Fund description

The Fund implements a systematic investment approach based on the regular screening of all US companies with a market cap above 3 billions US\$, with the objective of selecting companies with healthy key balance sheets figures and earnings expectations improvements as computed by Zacks. The focus is on companies with strong balance sheets in growth mode that have a statistically proven ability to exceed analyst consensus expectations. The companies in the portfolio should act shareholder friendly as witnessed by a favorable development of their capital structure ratios. The Fund actively tries to avoid investments in sectors with a long-lasting negative momentum and diversifies the specific risks by holding an adequate number of positions in the portfolio.
